Egg Carton Isolation
Working Together
Question

If the campus president came up to you right now, and asked, what is our mission statement?

a) Could you recite the mission statement?

b) Could you be in the ballpark?

c) Would there be an awkward silence?
Why It’s Important

1. Gives teachers and staff members a clear mission or vision to engage with every day.

2. Leads to better engagement which leads to better metrics like profitability, productivity, absenteeism, quality and customer ratings or loyalty.
Try This...

1. Find a colleague who is working on something.

2. Then ask that colleague “Why are you doing what you’re doing?”

3. Hear the answer and ask “Why?” again.

4. And again. And again.

Now, you’ve arrived at their (your) mission statement
Main Ingredients

- Focus on Learning
- Will this ensure higher levels of learning or high levels of training for our students?
- Collaborative
- Not co-blab-oration
- Results-Oriented
First Steps

- Sign-up, it’s free
- Follow people – educational people
- Check out the educational Twitter chats

|         |           |                       | Highland Park ISD's technology chat. We talk about how
|         |           |                       | to integrate CTE into the high school day. |
Coronavirus: Global death toll surpasses 47,000
A5: By showing real employment numbers & industry trends. Bringing the industry to the classrooms and to P/T nights. Stop this “every child goes to university” nonsense. Stop making CTE seem dirty and make it a connection.

Q5: Some negative perceptions of #CTE still persist among parents and students – How can we change this? #CTEchat #CareerTechEd @CTE_Chat
