Blueprints for Success: ACCSC’s Graduation and Employment Chart

An ACCSC Member Services Series
Introduction

The ACCSC **Blueprints for Success** highlight best practices and provide guidance on some of the more technical areas of ACCSC-accreditation in the hopes to help accredited member schools to comply fully and accurately with the Standards of Accreditation, achieve institutional success, and ensure that students are well prepared to enter the workforce.

Please note that the ACCSC **Blueprints for Success** do not supersede applicable accrediting standards, are not intended to be prescriptive about the way an accredited school operates, and do not address all compliance elements required by a school to maintain good standing with ACCSC. Rather, the ACCSC **Blueprints for Success** provides a framework that can help a school to gain a better understanding of the expectations and rigors of the accreditation process as well as sample documentation that a school might consider in order to demonstrate compliance with accrediting standards.

Modules

1. Preparing a Comprehensive Response for Commission Consideration

2. Organizing an Effective Electronic Submission

3. Preparing for the On-Site Evaluation – Best Practices

4. **ACCSC’s Graduation & Employment Chart**
Part I - An Instructional Guide

The ACCSC Graduation and Employment Chart ("G&E Chart") is the Commission’s mechanism for collecting, for each program, the rate at which students graduate from a program and the rate at which those graduates obtain employment in a training related field. The G&E Chart identifies “cohorts” of students and tracks individual student results within that cohort through program completion and employment outcomes. Schools must submit a G&E Chart for each program offered at the school based upon an established Reporting Period. The Commission then relies upon the reported data to make determinations about how well a program performs relative to the benchmark graduation and employment rates established by the Commission. The G&E Chart has specific criteria and parameters for each classification and as such schools must know and understand those criteria and apply them appropriately. This instructional guide is meant to provide schools with step-by-step instructions for completing the ACCSC G&E Chart.

How the Reporting Period is Calculated

The Reporting Period on the G&E Chart is calculated based on the Report Date and the Program Length in Months. Therefore, begin by entering:

- **Report Date** (use the following format: 7/1/16)
  
  The Report Date is generally provided in the Team Summary Report or Commission Action Letter. In the absence of this, use the Month/Year that the G&E Chart is being completed.

- **Program Length in Months**

  Use the actual amount of time a student must commit to a program to receive his or her credential, including breaks, holidays, and variations of schedule. A school's catalog may show the "academic instructional length" (weeks) and the "actual program length" in either weeks or months. To convert the program length from weeks to months, divide the number of weeks (including holidays and breaks) by 4.34 and round up to the nearest whole number. The actual program length is a clear indicator to the student of the total amount of time they will have to commit to successfully complete their program. The Commission uses the actual program length when calculating Graduation and Employment Chart cohort reporting timeframes. It is to the advantage of the school to use the actual program length (months) versus the academic instructional time (weeks) when calculating reporting timeframes. Please note, if the program is less than one (1) month, round up to one (1) month when entering the program length.

ACCSC’s reporting period is designed to:

a. Obtain data for a 1-year period;

b. Allow for students to complete the program within 1.5 times the program length; and

c. Allow graduates at least 3 months to find employment.
So, for a 12 month program, the reporting period using a July 2016 Report date is calculated as follows:

- \(12 \times 1.5 + 3 = 21\) months
- Count back 21 months from July 2016 \(\rightarrow \text{September 2014}\). This is the END of the Reporting Period
- Count back another 12 months from September 2014 \(\rightarrow \text{October 2013}\). This is the BEGINNING of the Reporting Period.

This means that the school will report on cohorts of students who started in the program between October 2013 and September 2014. This also means that students who started in the 12-month program in September 2014 will have had 150% of the normal length of the program to graduate and at least three months after graduation to find employment. This does not mean that students must have completed the program by the Reporting Period End Date.

The best news is that the Reporting Period dates are automatically calculated once you enter the Program Length in months and the Report Date on the G&E Chart.

Since the Reporting Period is dependent upon the length of the program in months the reporting period may be different for each scheduled variation of a program (e.g., part-time/full-time. The part-time version will likely have a longer program length). Again, the G&E Chart will automatically calculate these dates after the Report Date and Program Length are entered.

**Important:** For programs with multiple lengths, schools must submit a separate Graduation and Employment Chart for each version of the program. For example, submit two G&E Charts for a program with an 8-month schedule and a 12-month schedule.

A separate G&E Chart must also be submitted for programs that are offered 100% Distance Education or if more than 50% of the program is offered at a satellite location.

**How to Enter Your Data**

- **cohort**: noun.
  
  A group of individuals having one or more factors in common in a study.

In the case of the G&E Charts, the common factors are students who start in the same program at the same time.

ACCSC tracks each students’ progress/achievement by cohort start dates, not by graduation dates.

**Step 1:** As indicated above, enter the Report Date and the Program Length in Months to determine the Reporting Period.

**Step 2:** Begin Entering the Data line-by-line for each cohort.

- **Line (Row) 1. Class Start Date** (enter using the four digit format for the year: Oct-2013 or 10/2013).
This is the month and year each student cohort,\(^1\) started. In the example below (Table 1), there are start dates every month for the Welding program. If your program does not have a start each month you only need to enter the dates that do have program start dates that fall within the Reporting Period.

**Table 1**

<table>
<thead>
<tr>
<th>Program Title:</th>
<th>Welding</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Program Length in Months:</strong></td>
<td>12</td>

<td>3</td>
<td>5</td>
<td>5</td>
<td>10</td>
<td>10</td>
<td>12</td>
<td>5</td>
<td>7</td>
</tr>
</tbody>
</table>

**Step 3:** Enter the number of students who started for each Class/Cohort Start Date.

**Line 2. Number Started**

This is the number of students who started in the program for each start date in the period, including students entering with advanced placement. For example, in Table 1 above, 10 students started the Welding program in October 2013 and 7 students started the program in September 2014.

Start: Students are considered to have been in attendance for reporting purposes if, as a result of their attendance, they incur a tuition/fee or other financial obligation as specified by the institution’s refund policy. Fees or other obligations (i.e., uniforms, tools, etc.) are only those associated with actual attendance; not those considered part of the application for admission or enrollment process. In any event, any student enrolled 15 days from the scheduled start date of the program must be classified as a “start” for the purpose of reporting students on the Graduation and Employment Chart.

**Step 4:** Calculate the Graduation Rate.\(^2\) From each Class/Cohort Start entered on Line 2, enter the number of students that fall into each category\(^3\) (complete each row/line going down from each column start date).

Using the example in Table 2 below, for the October 2013 Class/Cohort Start:

**Line 2:** 10 students started in October 2013. Of the 10 student starts in this cohort:

**Line 3:** 1 student Transferred to Another ACCSC-approved Program at the school

**Line 4:** 1 student Transferred in from Another ACCSC-approved Program offered at the school.

**Line 5:** The Total Starts +/- Transfers is 10 (this line calculates automatically)

**Line 6:** 1 student was Unavailable for Graduation\(^4\) due to military service deployment

---

\(^1\) In cases where there are multiple program start dates in a month, group them by month.

\(^2\) The G&E Chart is self-calculating in most areas, but you need to classify the students and graduates correctly based upon the available categories.

\(^3\) The school must utilize the definitions in the Glossary of Terms portion of the Graduation & Employment Chart in the “Forms and Reports” section on the ACCSC website (www.accsc.org) for categorizing students for each line, also provided at the end of this document.
Line 7: 9 students are Available for Graduation (this line calculates automatically)

Line 8: 2 are classified as Withdrawn/Terminated*

* (1 student withdrew and 1 student graduated but did not graduate within 150% of the program length therefore she is counted as a withdrawal for the purposes of reporting on the G&E chart.)

Line 9: 7 Students Graduated within 150% of the program length (this line calculates automatically)

Line 10: Graduation Rate for this Cohort = 78% (the number of graduates divided by the number available for graduation, 7/9).

**Step 5:** Calculate the Employment Rate from the group of graduates.

Using the example in Table 2 below, for the October 2013 Class/Cohort Start, of the 7 graduates in this cohort:

Line 11: 1 graduate Furthered [his/her] Education^5

Line 12: 1 graduate is Unavailable for Employment^6 due to the onset of a medical condition

Line 13: 5 students are Available for Employment (this line calculates automatically)

Line 14: Of the 5 graduates Available for Employment, 4 are Employed in the Field

Line 15: Employment Rate for this Cohort = 80% (the number of employed graduates divided by the number available for employment, 4/5). (this line calculates automatically)

Line 16: 1 graduate is employed in an Unrelated Occupation.

**Final Steps:** Continue to complete each Class/cohort Start and the chart will automatically calculate the Total percentage.

---

^4 See the Glossary of Terms for the 4 (and only 4) reasons why a student would be removed from the Graduation Rate calculation.

^5 Further-Education: Graduates that continue on with education in an accredited institution of higher education (postsecondary) on at least a half-time basis.

^6 See the Glossary of Terms for the 5 (and only 5) reasons why a student would be removed from the Employment Rate calculation other than Further Education.
# Table 2 (Red = this line calculates automatically)

In this example:
- The Total Graduation Rate for the Welding program is 74%
- The Total Employment Rate is 90%.

<table>

## Glossary of Terms Used on the Graduation and Employment Chart

All Data Included in the Graduation and Employment Chart Must Be Verifiable Through Appropriate Documentation

1. **Class Start Date:** The month and year each student cohort, or groups of student cohorts students started (a group of student cohorts occurs when there are multiple class starts within a single month).

2. **Number Started:** The number of students who started in the program for each start date in the period, including students entering with advanced placement.

   Start: Students are considered to have been in attendance for reporting purposes (Start) if, as a result of their attendance, they incur a tuition/fee or other financial obligation as specified by the institution’s refund policy. Fees or other obligations (i.e., uniforms, tools, etc.) are only those associated with actual attendance; not those considered part of the application for admission or enrollment process. In any event, any student enrolled 15 days from the scheduled start date of the program must be classified as a “start” for the purpose of reporting students on the Graduation and Employment Chart.

3. **Transfers to Another Program:** The total number of students who transferred **out of this program** and into another ACCSC-approved program at the school.

4. **Transfers from Another Program:** The total number of students who transferred **into this program** from another ACCSC-approved program at the school.
5. Total Starts plus/minus Transfers (Line 5 = 2-3+4): The total number of students who started, minus those who transferred out, plus those who transferred in. This is the total number of students on which graduation will be based.

6. Unavailable for Graduation: This category removes from the graduation rate calculation students who fall into one of the following classifications: death, incarceration, active military service deployment, or the onset of a medical condition that prevents continued enrollment.

7. Available for Graduation (Line 7=5-6): The total number of student available for graduation from the program. (This is the total number of students who started the program that have not dropped for the above four reasons.)

8. Withdrawn / Terminated Students: The number of students who withdrew or were terminated, within 150% of the program length, from the program. This number does not include the student classified as "Unavailable for Graduation" (Line 6).

9. Graduates within 150% of Program Length: The number of students who graduated from the program within 150% of the stated program length.

10. GRADUATION RATE: The school's official graduation rate for each cohort and for the program for the reporting period (Line 10 = 9/7).

11. Graduates - Further Education: This category removes from the employment rate calculation the number of graduates that continue on with education in an accredited institution of higher education (postsecondary) on at least a half-time basis.

12. Graduates - Unavailable for Employment: This category removes from the employment rate calculation graduates who fall into one of the following categories: death, incarceration, active military service deployment, the onset of a medical condition that prevents employment, or international students who have returned to their country of origin.

13. Available for Employment (Line 13 = 9-11-12): The total number of students available for employment.

14. Graduates - Employed in Field: The number of graduates employed in jobs for which the program trained them. NOTE: Graduates classified as employed must be supported by documentation showing position obtained, date employed, employer, and employer contact person, address, and phone.

Please Note: The school must be able to justify the classification of each graduate as employed in a training related field and maintain verifiable employment records using ACCSC's Guidelines for Employment Classification, Standards of Accreditation, Appendix VII.

15. EMPLOYMENT RATE: The school's official rate of graduate job attainment for each cohort and for the program for the reporting period (Line 15=14/13). The school's official rate of employment is that which is used to determine compliance with accreditation requirements.

16. Graduates in Unrelated Occupations: The number of graduates employed in jobs not related to the training obtained from the school's program.

17. Graduates Unemployed: The number of unemployed graduates.

18. Graduates Unknown: The number of graduates for which no information about employment or unemployment is available.

19. Non-Graduated Students Who Obtained Training Related Employment: The number of withdrawn/terminated students from Line 8 who obtain employment in a field related to the program in which the student was enrolled and based upon the training provided by the school.

20. Employment Rate with Non-Graduated Students Who Obtained Training Related Employment: The school's supplemental employment rate which calculates the total number or graduated and non-graduated students who obtained training related employment.
How the G&E Chart Data is Verified

ACCSC verifies Graduation and Employment data reported by schools in a number of ways including but not limited to:

a. Verification during on-site evaluations and
b. Verification of a random sample of reports each year.

Independent Third-Party Verification of Employment Data

- **Annual Random Sample**
  ACCSC randomly selects and subjects graduate employment records from 10% of the Annual Reports submitted by ACCSC-accredited institutions to a third-party independent verification audit.

- **Initial and Renewal Application for Accreditation**
  In 2014, in addition to the annual random sampling conducted by ACCSC through an independent third-party verifier, ACCSC mandated that all institutions seeking initial accreditation or renewal accreditation subject graduate employment records for all programs to an independent verification audit as part of the accreditation process – the requirements and parameters are detailed in the ACCSC Self-Evaluation Report found on the Forms and Reports page of the ACCSC website.

On-Site Evaluation

The on-site evaluation team will review documentation to support the graduation rate (e.g., transcripts and documentation for students classified as Unavailable for Graduation) as well as documentation to support the employment rate (e.g., employment records and documentation for students categorized as Graduates - Further Education and Graduates - Unavailable for Employment).

---

Documentation to Support the G&E Chart

The school must support student achievement rates through student transcripts, the school’s verifiable records and documentation of initial employment of its graduates, and exam pass rate data obtained from the requiring entity. The school must be able to justify the classification of each graduate as employed in a training related field and maintain verifiable employment records using ACCSC’s Guidelines for Employment Classification, Standards of Accreditation, Appendix VII.

The Commission requires that the supporting documentation for the G&E Chart be organized by Cohort Start Date for each G&E Chart. There are two methods that the Commission typically requests supporting documentation from a school.

Part II of this Blueprint module contains examples of the Commission’s expectations for these two methods:

1. Summary Supporting Information and
Module 4
ACCSC Graduation and Employment Chart

Part II - Sample Supporting Documentation

Section VII (B)(1)(b), Substantive Standards, Standards of Accreditation states that schools must demonstrate successful student achievement by maintaining acceptable rates of student graduation and employment in the career field for which training is provided and must support these rates through student transcripts, the school’s verifiable records of initial employment of its graduates, or other verifiable documentation. The Graduation and Employment Chart (“G&E Chart”) is the Commission’s mechanism for collecting student achievement data and schools must provide this information in accordance with prescribed requirements and instructions that accompany this chart.

The Commission provides this sample of supporting documentation in an effort to help schools better understand how the Commission would like this information to be organized in order to facilitate efficient review and to help schools better understand the types of documentation that the Commission considers to be verifiable evidence to support data presented by schools in the ACCSC G&E Chart. The information included in this document is considered to be examples of documentation and is not intended to be an exhaustive list and schools are not limited to these examples. Schools may use other types of supporting documentation that can be validated and verified.

Two methods that the Commission typically requests/reviews supporting documentation from a school as required in Commission Action Letters, Team Summary Reports, the SER, etc.:

1. **Summary** Supporting Information
2. **Actual Copies of** Supporting Documentation/Transcripts/Employment Records

The pages that follow provide examples that align with **Table 3 - Sample G&E Chart**

### Error Check

**If there is a value other than zero in any of these fields, then there is an error in the data:**

- Checking Calculation of Graduates: 0 0 0 0 0 0 0 0 0 0 0 0 0 0
- Checking Calculation of Available for Employment: 0 0 0 0 0 0 0 0 0 0 0 0 0 0
- Checking Calculation of Placement Accountability: 0 0 0 0 0 0 0 0 0 0 0 0 0 0

**If the value is greater than zero in any of these fields, then there is an error in the data:**

- Checking Calculation of Non-Graduated Students: -2 0 -5 -5 -2 -2 -2 -1 -1 -1 0 -1 -22
Summary Supporting Information
(To support data in Table 3)

Program: Welding

Report Date: July 2016
Program Length in Months: 12
Reporting Period Beginning Date: October 2013
Reporting Period End Date: September 2014

Graduation Rate

For each student start provide the following:

<table>
<thead>
<tr>
<th>Student Name</th>
<th>Program</th>
<th>Start Date</th>
<th>Graduation Date</th>
<th>Withdrawal/Termination Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mike Grey</td>
<td>Welding</td>
<td>10/13</td>
<td>10/1/14</td>
<td>N/A</td>
</tr>
<tr>
<td>Jim Brown</td>
<td>Welding</td>
<td>10/13</td>
<td>10/1/14</td>
<td>N/A</td>
</tr>
<tr>
<td>Bill White</td>
<td>Welding</td>
<td>10/13</td>
<td>10/1/14</td>
<td>N/A</td>
</tr>
<tr>
<td>Sally Greene</td>
<td>Welding</td>
<td>10/13</td>
<td>10/1/14</td>
<td>N/A</td>
</tr>
<tr>
<td>Tony Blue</td>
<td>Welding</td>
<td>10/13</td>
<td>N/A</td>
<td>N/A</td>
</tr>
<tr>
<td>Tony Green</td>
<td>Welding</td>
<td>10/13</td>
<td>10/1/14</td>
<td>N/A</td>
</tr>
<tr>
<td>Mike White</td>
<td>Welding</td>
<td>10/13</td>
<td>10/1/14</td>
<td>N/A</td>
</tr>
<tr>
<td>Sally Summer</td>
<td>Welding</td>
<td>10/13</td>
<td>10/1/14</td>
<td>N/A</td>
</tr>
<tr>
<td>Margaret Winter</td>
<td>Welding</td>
<td>10/13</td>
<td>6/1/15**</td>
<td>Graduated beyond 150%</td>
</tr>
<tr>
<td>Alice Autumn</td>
<td>Welding</td>
<td>10/13</td>
<td>N/A</td>
<td>1/20/14</td>
</tr>
<tr>
<td>Manuel Blanco</td>
<td>Welding</td>
<td>11/13</td>
<td>11/1/14</td>
<td>N/A</td>
</tr>
<tr>
<td>Jose Verde</td>
<td>Welding</td>
<td>11/13</td>
<td>11/1/14</td>
<td>N/A</td>
</tr>
</tbody>
</table>

**Although Margaret Winter ultimately graduated, she did not complete the program within 150% of the normal duration therefore she is counted as a withdrawal for the purposes of reporting on the G&E Chart.9

For each student classified as “Unavailable for Graduation” (line #6), provide the following information:

<table>
<thead>
<tr>
<th>Student Name</th>
<th>Program</th>
<th>Start Date</th>
<th>Reason Unavailable</th>
<th>Description of Documentation on File</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tony Blue</td>
<td>Welding</td>
<td>10/13</td>
<td>Military Deployment</td>
<td>Copy of Military orders</td>
</tr>
</tbody>
</table>

The school must be able to provide supporting and verifiable documentation for each student classified as “Unavailable for Graduation” to include minimally, external documentation such as military orders, letter from physician/doctor, death notice/obituary, public record of incarceration.

9 The school is not required to terminate the enrollment of a student who is unable to complete the program within the maximum timeframe unless the school has determined that the student has failed to meet school policies that would otherwise warrant termination (e.g., academic progress or attendance policies). For the purposes of reporting student achievement, the school may not classify students who do not complete the program within the maximum timeframe as graduates (Section VII (A)/(3)(d) Substantive Standards, Standards of Accreditation).
### Employment Rate

For each graduate classified as Employed in the Field\(^{10}\) (line #14), provide the following information:

<table>
<thead>
<tr>
<th>Graduate Name</th>
<th>Program</th>
<th>Start Date</th>
<th>Place of Employment</th>
<th>Contact Address / Phone / Email for Place of Employment</th>
<th>Date of Initial Employment</th>
<th>Descriptive Job Title &amp; Responsibilities</th>
<th>Source of Verification (i.e., graduate or employer)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mike Grey</td>
<td>Welding</td>
<td>10/13</td>

<td>Employer</td>
</tr>
</tbody>
</table>

\(^{10}\) See Appendix VII – Guidelines for Employment Classification, Standards of Accreditation

*This date of initial employment is prior to his graduation date, therefore this school will need to document how this situation meets ACCSC’s Guidelines for “Career Advancement.” See description of documentation on file below for Bill White.
For each graduate classified as employed in a training related field, that is “self-employed” or “career advancement,” provide the following:

Self-Employed Graduates:

<table>
<thead>
<tr>
<th>Graduate Name</th>
<th>Program</th>
<th>Start Date</th>
<th>Description of the Documentation on File</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mike Grey</td>
<td>Welding</td>
<td>10/13</td>
<td>Statement signed by the graduate that includes all elements from the ACCSC Guidelines for Employment Classification including the required attestation for self-employed graduates</td>
</tr>
</tbody>
</table>

Graduates classified as Career Advancement:

<table>
<thead>
<tr>
<th>Graduate Name</th>
<th>Program</th>
<th>Start Date</th>
<th>Description of the Documentation on File</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bill White</td>
<td>Welding</td>
<td>10/13</td>
<td>Statement from the employer that the training supported the graduate’s ability to be eligible or qualified for advancement due to the training provided by the school.</td>
</tr>
</tbody>
</table>

For each graduate classified as “Graduates-Further Education” (line #11) or “Graduates-Unavailable for Employment” (line #12), provide the following information:

<table>
<thead>
<tr>
<th>Graduate Name</th>
<th>Program</th>
<th>Start Date</th>
<th>Classification on the G&amp;E Chart</th>
<th>Reason</th>
<th>Description of the Documentation on File</th>
</tr>
</thead>
<tbody>
<tr>
<td>Manuel Ortiz</td>
<td>Welding</td>
<td>10/13</td>
<td>Further Education</td>
<td>Enrolled in Advanced Welding at another school</td>
<td>Copy of acceptance letter from new school</td>
</tr>
<tr>
<td>Samuel Smith</td>
<td>Welding</td>
<td>10/13</td>
<td>Unavailable for Graduation</td>
<td>Military Service Deployment</td>
<td>Copy of Military Orders</td>
</tr>
</tbody>
</table>

The school must have supporting and verifiable documentation for any student classified as “Unavailable for Graduation” (line #6), “Graduates-Further Education” (line #11), “Graduates-Unavailable for Employment” (line #12), or “Non-Graduated Students Who Obtained Training Related Employment” (line #19). This must include, minimally, external documentation such as transcripts/enrollment agreements for “Graduates-Further Education” and military orders, letter from physician/doctor, death notice/obituary, public record of incarceration, etc. for “Graduates-Unavailable for Employment.”
Examples of Supporting Documentation\textsuperscript{11}

The examples here are not intended to be an exhaustive list but rather examples of what the Commission considers to be verifiable. Other types of documentation may be considered verifiable.

**Line #6 - Unavailable for Graduation:** This category removes from the graduation rate calculation students who fall into one of the following classifications: death, incarceration, active military service deployment, or the onset of a medical condition that prevents continued enrollment.

The following is a list of the types of documentation that the Commission considers to be verifiable:

- **Deceased:** Copy of death record, copy of obituary, or other official documentation on letterhead.
- **Incarcerated:** Copy of the arrest record, police report or booking/intake documentation, or other official documentation on letterhead or downloaded from an official website.
- **Active Military Service:** Copy of military orders or other official documentation on letterhead or downloaded from an official website.
- **Medical Condition:** Copy of documentation from the student's physician that demonstrates that the student cannot continue enrollment due to a medical condition. Details regarding the student’s specific medical condition are not necessary.

**Line #11 - Graduates - Further Education:** This category removes from the employment rate calculation the number of graduates that continue on with education at an accredited institution of higher education (postsecondary) on at least a half-time basis. The following is a list of examples of documentation the Commission considers to be verifiable:

- **Enrollment Agreement** at institution where student is continuing education.
- **Acceptance Letter** from Institution where student is continuing education.
- **Student enrollment records** from a database or clearinghouse.

**Line #12 - Graduates - Unavailable for Employment:** This category removes from the employment rate calculation graduates who fall into one of the following categories: death, incarceration, active military service deployment, the onset of a medical condition that prevents employment, or international students who have returned to their country of origin.

The following is a list of examples of documentation the Commission considers to be verifiable:

- **Deceased:** Copy of death record, copy of obituary, or other official documentation on letterhead.
- **Incarcerated:** Copy of the arrest record, police report or booking/intake documentation, or other official documentation on letterhead or downloaded from an official website.
- **Active Military Service:** Copy of military orders or other official documentation on letterhead or downloaded from an official website.
- **Medical Condition:** Copy of documentation from the graduate's physician that demonstrates that the graduate cannot pursue employment due to a medical condition. Details regarding the graduate’s specific medical condition are not necessary.

\textsuperscript{11} If a demonstration cannot be made, with verifiable supporting documentation, for the above conditions, students should not be classified as “Unavailable for Graduation,” “Unavailable for Employment,” “Further Education” or “Employed in Field.” Supporting documentation should be maintained in the student file for reporting/verification purposes.
International Students who have left the country and returned to their country of origin:
Admissions/enrollment paperwork that demonstrates the student is not a U.S. citizen and any supporting documentation that demonstrates they have not maintained U.S. residence status following graduation.

Line #14 - Graduates – Employed in Field

GUIDELINES FOR EMPLOYMENT CLASSIFICATION (Appendix VII, Standards of Accreditation)

The school must be able to justify the classification of each graduate as employed in a training related field and maintain verifiable employment records using the following guidelines. In accordance with Section I (A)(1)(d) Substantive Standards, Standards of Accreditation, the school should have and adhere to policies or protocols in regard to these guidelines (reasonable time period, sustainability, relatedness, etc.).

1. The employment classification is appropriate and reasonable based on the educational objectives of the program.
2. The employment is for a reasonable period of time, is based on program objectives, and can be considered sustainable (e.g., not a single day of employment).
3. The employment is directly related to the program from which the individual graduated, aligns with a majority of the educational and training objectives of the program, and is a paid position.
4. The employment classification is verified by the school (and verifiable by third parties such as the Commission) as follows:
   a. Regular Employment:
      i. The school secures written documentation from the employer verifying the employment and that the employment is related to the student’s program of study at the school; or
      ii. The school secures written documentation from the graduate verifying the employment and that the employment is related to the student’s program of study at the school; or
      iii. In cases where a school can show diligent efforts have been made to secure such written documentation without success, the school maintains employment verification records that include:
         1. The graduate’s and employer’s name and contact information;
         2. A signature of school staff attesting to verbal employment verification with the employer and the date of verification; and
         3. A signature of school staff attesting to verbal employment verification with the graduate and the date of verification.
   b. Self-Employment:
      The school secures written documentation from the self-employed graduate verifying that the employment is valid including, at a minimum, a statement signed by the graduate which includes the following:
      • The graduate’s name and contact information;

Note: The school should have a policy/definition for what it considers to be diligent effort. The policy defines how many attempts the school makes to get written documentation before resorting to verbal verification. Keep documentation of those diligent efforts/Attempts. Verbal verification is NOT permitted for Self-Employment.
c. Career Advancement:

Students that are already employed in the field of study as defined above at the time of graduation$^{12}$ can be considered employed when completing the program of study as follows:

i. The school shows with written documentation from the employer or the graduate that the training allowed the graduate to maintain the employment position due to the training provided by the school; or

ii. The school shows with written documentation from the employer or the graduate that the training supported the graduate’s ability to be eligible or qualified for advancement due to the training provided by the school.

$^{12}$ The intent of this provision does not apply in cases where a student secures employment toward the end of the program but prior to graduation, where the employment is based on the near anticipated completion of the program (e.g., externship to hire prior to graduation).

To: Cal Barnson  
Subject: RE: Employment Verification

Hello Cal,

Jim did start here at BeSmart Welders back in November of 2014 as a welder. He was primarily responsible for designs, fabrications, joints, and repairs of various equipment and fixtures. He did a great job and has since been promoted to Shop Supervisor. Please let me know if you have any additional questions regarding Jim. Also, I am looking for someone to fill his Welder position, do you have any exceptional current graduates for me?

Thank you,

Joe Davola  
Master Welder

Fax:

Start Date: 10/15/14

List of Services Offered/Provided: Create and fabricate designs; join and repair various equipment and fixtures for customers.

I attest to the following:

After graduating from The Welding Institute I am currently self-employed;
My self-employment is:
- aligned with my employment goals,
- is vocational, and
- is based on and related to the education and training received at The Welding Institute;
I am earning training-related income; and
I have achieved the required licensure to practice as a welder in my state.

Signature of Graduate: Mike Grey
Date: 2/25/14

Tip:
Where there are a significant number of self-employed graduates, it is also helpful to have supporting information such as current client lists, recent invoices, online reviews, etc.
