

Resources for Students affected by the Closure of Hussian College

Hussian College announced on June 12, 2023 that it cannot continue to operate except to complete instruction for students in the internship or clinical portions of their programs. Thereafter, it is expected that the institution will wind down and eventually cease all operations. The school is working on teach-out arrangements for affected students.

ACCSC is actively working with the state agencies and the Federal Government to help establish transfer options for students interested in continuing their programs of study. Below are links to state and federal agencies that can assist students with transfer and transition options – we will continue to update this page as additional information becomes available.
