Put Your Best Foot Forward: Preparing for the On-Site Evaluation

The date has been on your calendar throughout your school's self-evaluation process and now it's almost here, the On-Site Evaluation. As you prepare to welcome the ACCSC team, you may be feeling a mix of anticipation, excitement, and nerves. This webinar is designed to help you feel ready, organized, and confident for this important next step in peer review. Join ACCSC staff who have participated in hundreds of on-site evaluations as they share practical guidance, lessons learned, and "tales from the road." You'll walk away with best practices for every stage of the visit, from final preparations before the team arrives to closing the visit on a strong note. Additionally, ACCSC's Executive Director will provide remarks on the most recent July 1, 2026 Accreditation Alert.
